Hi,

I have been meaning to ask if there was anything in the benzo[a]pyrene peer review comments or ERC comments that would prompt additional peer review. Getting this from David for EtO reminded me to ask you guys about it and if you were aware of this form and the need to fill it out?

Thanks,  
Samantha

Cheryl,

I see you are out today and here tomorrow.

I have signed the attached form. Antoinette has the signed copy ready for your signature if you concur.

Thanks

David

PS: Jennifer and Viktor, I made a slight change to the answer on top of page 2 of the form. Thank you for remembering we had to do this and for doing a good job on this. David
